

Muhammad Zakaria

Senior Frontend Developer | React.js & Next.js

Cairo, Egypt | m.zakariaa06@gmail.com | +20 111 866 2916 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Senior Frontend Developer with 7+ years of experience designing and building scalable, high-performance web applications using React.js, Next.js, and TypeScript. Track record of delivering enterprise platforms across healthcare, recruitment, CRM, HRM, and SaaS environments, with strong ownership of component architecture, UI performance, and reusable design systems. Skilled at translating complex Figma designs into clean, production-ready interfaces and collaborating closely with design, product, and backend teams to ship features end-to-end.

CORE SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js (App Router), Redux, React Hook Form, React Router

Styling & UI: Tailwind CSS, Sass, Bootstrap, Radix UI, Styled Components, Framer Motion

Architecture & State: Custom Hooks, React Context, Component-Driven Architecture, Design Systems

Tooling & Workflow: Webpack, Gulp, ESLint, Git/GitHub, Figma-to-Code

Backend & APIs (Working Knowledge): Node.js, Express, C#, ASP.NET Core, SQL, REST APIs

Other: Responsive Design, Performance Optimization, Cross-Browser Compatibility, Accessibility

PROFESSIONAL EXPERIENCE

Senior Frontend Developer (React.js) Oct 2023 – Present

Content Clouds — Riyadh, Saudi Arabia

- Lead frontend development on healthcare and enterprise web platforms built with React 18, Next.js, and TypeScript, owning architecture decisions across multiple concurrent projects.
- Translate complex Figma designs into responsive, production-ready interfaces, partnering with UI/UX designers and backend engineers to deliver features end-to-end.
- Architect reusable custom React hooks and shared component patterns that cut duplication and speed up delivery across teams.
- Build and maintain 20+ form-heavy workflows with React Hook Form, strengthening validation reliability and submission performance.
- Improve page load and perceived performance through lazy loading, pagination, and optimized loading states on key, high-traffic screens.

Mohm Healthcare Web App — React 18, React Router v6

- Designed and built a healthcare web application supporting 10+ internal clinical workflows, with secure authentication via Google OAuth and reCAPTCHA.
- Implemented dynamic data fetching with Axios across hundreds of daily REST API requests, with resilient error handling and user feedback.
- Delivered responsive UI components with Tailwind CSS, Flowbite, Styled Components, and Sass; added Leaflet-based maps/geolocation and React Slick carousels to support field operations.

One Step Website — React, Next.js 15, Framer Motion

- Built a high-performance, animation-rich marketing site, reducing page load time versus the previous implementation and improving scroll engagement.
- Developed 20+ reusable UI components with Tailwind CSS, Radix UI, and class-variance-authority (CVA); optimized images via Sharp and WebP pipelines.
- Integrated Swiper carousels and Intersection Observer-based interactions to improve responsiveness and perceived performance.

Jobs AI Platform — Recruitment & CV Evaluation System

- Built a multi-role recruitment platform enabling CV uploads and AI-based candidate evaluation, plus an admin dashboard for managing employees, courses, and reports.

- Implemented role-based access control (RBAC) and group-based assignment workflows, improving security and process clarity.
- Designed a scalable frontend architecture that reduced the time required to ship future features.

Frontend Developer (Remote) Nov 2022 – Oct 2023

Iksib Sell — Safat, Kuwait

- Built a React + Tailwind CSS admin dashboard for an e-commerce platform, with a strong focus on validation, usability, and cross-browser consistency.
- Partnered with UI/UX teams to refine existing features and layouts based on user feedback.

Frontend Developer (Freelance) Aug 2022 – Nov 2022

FreshFilter — Netherlands

- Built new user-facing features with Vue.js and Quasar UI, integrating real-time data from Odoo ERP APIs.
- Delivered responsive layouts tailored for business users.

Frontend Developer Jan 2022 – Aug 2022

One Health Network — Cairo, Egypt

- Developed UI components for a lab management system used by healthcare providers, using Bootstrap, JavaScript, and Syncfusion.
- Contributed to backend functionality with C# and ASP.NET Core, and maintained workflows in Team Foundation Server (TFS).

Frontend Developer Sep 2018 – Jan 2022

Global App Tech — Cairo, Egypt

- Built internal business applications for CRM, HRM, and healthcare platforms using HTML, CSS, Bootstrap, JavaScript, and jQuery.
- Integrated frontend with ASP.NET Core, SQL, and AJAX-based services on long-term enterprise projects, including the Egyptian Countryside Development (ECD) system and the Wayak Business Application for IDH.

EDUCATION

Bachelor's Degree in Agricultural Engineering — Ain Shams University (2017)

Graduation Project: Automatic Aqua Aquaponic System

CERTIFICATIONS

- React Development Nanodegree — Udacity (2022)
- Web Professional Track Nanodegree — Udacity (2021)
- Programming Fundamentals (C++, OOP, Data Structures, SOLID, Design Patterns) — Route Academy (2021)
- React.js — MaharaTech (2020)
- TypeScript — MaharaTech (2021)
